Environment Rating Scales (ERS) and Resources

The Environment Rating Scales are research-based assessment tools which offer a reliable measure of overall quality in programs serving young children. Use for self-assessment, preparation for accreditation, or to meet state requirements. Coaching with ECERS is a valuable resource that provides practical strategies and guidance for coaches, administrators, and others who work with classrooms to improve quality.

BECKER'S®

Dear Educator,

We hope you find this resource helpful. It is intended to guide you in selecting materials and furnishings for setting up new classrooms or enhancing existing spaces. We used the Early Childhood Environment Rating Scale, Third Edition (ECERS-3) as a reference in making these product recommendations with the understanding that caregiver interactions and best classroom practices play the most significant role in the quality of care.

Please use the list as a starting point and customize it by adding, removing, or editing product suggestions to meet your program's unique interests and needs. Our experienced sales team is available to assist you with product selections that meet your budget as well as your vision for quality programming.

We realize it takes more than great products to achieve program goals. We strongly encourage you to consult with your local Environment Rating Scale Assessor or Quality Assurance Evaluator to ensure full compliance with specific standards of practice.

It is our pleasure to assist you as you embark on a plan to create a warm, welcoming, and enriching environment for young children.

Respectfully yours,

Leslie Silk Eslinger, M.Ed.
Director of Education and Development

Kathy A. Trainor, Ed.D.
Early Childhood Specialist

Becker's mission is to understand, anticipate, and be responsive to the needs of schools, educators, and young students by providing the tools, resources, and customized solutions for 21st century learning.
